

# **Dogs and cats need regular dental care, just like humans.**

Smaller breeds, like these, have the greatest risk of dental disease, but it is possible- even likely- for all dogs and cats to have it.

Nearly 4 out of 5 dogs over the age of 3 show some signs of oral disease

(What would your teeth look/feel/smell like if you never brushed?)

**Let us do a dental evaluation while you're here today - FREE of charge.**
